1	topic/ plan section	Comment	From	Details / Notes	Addressed
2	recreation	Thanks so much for taking the time to read and respond to my email. My understanding is that the town plan is meant to communicate the interest and priorities of the town's residents so I just want to be sure that the interest of us motorists are included. Since most of that group often chooses not to get involved in town affairs it would be really easy to overlook them/us entirely. I pretty much have all motor sports in mind to be included. Snowmobiling is the most accepted and most organized and I would definitely seek inclusion for that. There's also a whole host of other, less organized and often less accepted motor activities which includes ATVs, side by sides, dirt bikes and off road trucks (mud trucks.) With those there is kind of a hierarchy of what's typically more accepted with ATV and side by sides having a more organized and accepted status (because of formal clubs) and dirt bikes and mud trucks at the bottom. I think it's really important for everyone on the board and off the board to consider that ALL of these activities have been ongoing in Woodbury for generations and are really important to many residents, whether or not those residents are very vocal about it. I am hoping that can be represented somehow in the town plan since this plan will be laying groundwork for the future of our town.	Lizzy Higgins, via email	on 9/8/2021 PC revised Outdoor Recreation Objective H. and added new Action x. incorporated into 9/17/2021 draft	yes
3	Comments from the 8/28 meeting				
4	junkyards	Woodbury already has rules on junkyards but the town chooses not to enforce them, so the issue isn't about having rules, its about enforcing them	P Peltz, M McGlenn	on 9/8/2021 M Gray suggested this should be addresses via ordinance and to be addressed by the SB	
5	recreation	to create a town beach it's important to make sure its not isolated as it could invite undersible behavior/activities, and would ned to be a highly viable location.	P Peltz		
6	recreation	The town has swimmgng rights at Memorial Hall, Number 10 Pond in Calais	M Gray		
7	public participation	The public input doesn't include a fair representation off all residents. Suggestion for a town wide mailing informaing people about the project	D Baril	Paper survey mailed / Adressed	yes
8	public participation	Wasn't aware of the project, as not on Front Porch Forum, and didn't recive any notice of the project until someone sent nptice of the 8/28 meeting	K Brown	Paper survey mailed / Adressed	yes
9	adoption process	The plan should be approved by public vote	D Baril?		

	A	B	C	D	E
10	purpose of the plan	concern that the plan will limit what people can do with their property	T Higgins		
11	impact of the plan	doesn't want things to change in Woodbury	L Murphy		
12	public participation	recognition that individuals also have a responsibility to make themselves aware of municipal activities	C Gordon		n/a
13	public participation	appreciated the posting of hard copy minutes at the post office	S Boudluc		n/a
14	Natural Setting	town shouldn't be more restrictive or enforce state shoreland protection act requirements, the state already does this and the town shouldn't be involved. Concern about additional restrictions for shoreland property.	M Lafirira	language in Implementation Program in 9/17 draft was modified to encourage compliance, rather than increased regulation/enforcement	yes
15	implementation	would like to see an action/recommendation to manage noise, like a noise ordinance, as police doesn't respond/enforce	M Sadler		
16	Future Land Use	lake shore neighborhood district clarification and inclusion of considerations for conversion of homes and acknowledgement that these areas are different and unique and should be recognized as such	P Peltz	believe this has been addressed in updated description in the Future Land Use Section of 9/18 draft	yes
17	implementation	concerned zoning-related recommendations as current zoning isn't enforced and this is a critical aspect of having the rules			
18	process	can send written comments to town office P.O. Box 10.			n/a
19	process	suggestion to submit comments and reference document line #'s			n/a
20	Natural Setting	lines 262-279 re fragmentation of forest land: would make it more Woodbury (?) specific change in parcel size			
21	Natural Setting	lines 312 re Rare, Threatened & Endangered species: they should be listed. The sentence "Their exact locations are not specifically mapped as a method of protection" Does that mean they are not mapped on purpose because it is thought that doing so would expose them to human mischief? If so then why call out the location of the petroglyphs (line 548-552)	hand written comments from 8/28 meeting, Evelyn Bailay evelyn.bailey@comcast.net		
22	recreation	Woodbury Hardwick rail trail in the town forest: it isn't mentioned			
23	general	West Woodbury? Need to address it in the plan by involving the residents			
24		from Sept 1 Zoom meeting			
25	question	inquiry about the status of the school, inquiry about the quarry designation from one of the natural resource maps	Anna Lee		n/a
26	clarification	closure of the schools would be subject to a vote of the entire electorate	S Murphy		

	A	B	C	D	E
27	process	The PC welcomes more diverse membership on the PC, there are 3 open positons	S Lindsay		n/a
28	Sense of Community	Laura Massell joined late, and would like a copy of the recording. Would like to express support of, and support library efforts. Wanted to recognize the library as a hub, especially in liiht of the store closina. lmassell@uvm.edu	L Massell		
29		recieved via email			
30	Historic	My only comment was to respond to the member of the public that asked if it would be a good idea to sanitize the language surrounding the petroglyph location. Perhaps just mention that Woodbury is ho e to petroglyphs without mentioning cranberry meadow.	M Sadler, email 9/15		
31	general	the Woodbury Center Village (Should we define the term "Village" as Woodbury Village specifically or just be consistant when talking with a term, like Center Village or Woodbury Center Village? as we have mentioned South Woodbury village earlier. In reading, I assume "Village" does infer Woodbury Center Village but others may not)	m Gray/M Sadler comments made in 09132021 draft	I think this has been addressed in the 9/18 draft	
32	Recreation	Reading through the Implementation Table, Outdoor Recreation Goal, Objective H, I noticed there was no mention of motor sports. Here's the correct language: "Expand hiking, biking, skiing, snowshoeing, and off-road motorsports opportunities on public and private lands"	Skip email 9/14	change made	
33	Recreation	Sent along excerpt of VLCT News May-June 2021 and notes that ATVs cannot be operated along town highways unless the selectboard has opened the roads to ATV travel. 23 V.S.A. § 3506(b)(1)(A). And that another slight change to the law clarifies that ATVs also cannot be operated on town land unless the land has first been opened up to ATV travel by the selectboard. municipalities will need to amend their ordinances to bring them into compliance. VLCT has updated its model All-Terrain Vehicle (ATV) Ordinance to assist in these efforts	S Murphy email 9/8		n/a?
34	Recreation	Opposes any action to increase motor sports activity including operation of ATVs on town highways and land. Thank you for considering this information, and for your ongoing work in drafting the Town Plan.			
35	gneral	sent grammatical and minor wording changes - see attached word.doc with list	S Murphy email 9/13, transferring inot a word doc	most changes made, thos not have been identified. Change encorporated into 9/17/21 draft plan	
36	Historic and Municipal Services	1914 according to the National Register application. I recommend changing to 1914 MG).	MS comment 9/15 draft	the VT State Historic Survey states 1901? Change was not made in 9/17/2021 plan	

	A	B	C	D	E
37	historic	For example, historic research found Woodbury had the distinction of sending more of its sons to fight in the Civil War than any other town of its size in the state. Though an interesting fact, I am not sure how this sentence relates to the town's cemeteries, unless the research conducted used the cemeteries as a source for its findings. There is a stone in the Harvey cemetery on the Cabot Road that mentions the person designated died in Andersonville, the notorious southern prisoner of war camp.)	MS comment 9/15 draft		
38	transportation	Route 14 north of Bailey Bridge Road was repaved in the early 2000's and its pavement condition is currently classified as "Fair" based upon VTrans' Pavement Condition portal. The stretch of Route 14 southward to Calais is classified as "Poor" or "Very Poor." No improvements or projects are planned in the next 3 years. (I believe a good part of this stretch will be paved this season. Signs are up stating this.)	MS comment 9/15 draft	From Clare: the stretch of RT 14 at the Calais/Woodbury boarder has indeed been repaved. The work was not listed on the Vtrans Project List or on its Maintance List (as provided on this website https://vtransparency.vermont.gov/ and this stretch is still identified as "poor" on this portal: https://vtransparency.vermont.gov/pages/pavement) A revision should be made to the text that recognizes this work has been done as of September 2021.	
39	transportation	The State of Vermont will contribute an additional 7.5% toward the costs and for communities that take specific steps to reduce flood damage the State will contribute 12.5% or 17.5% of the total cost. Currently Woodbury is eligible for the 7.5% and with relative low effort could be eligible for 12.5% whereby lowering the town's financial responsibility. What would this effort entail? Could it be stated in the town plan?	MS comment 9/15 draft		
40	transportation	I noted on page 36 of the town plan, a statement that no construction in the next 3 years is planned for Route 14 through Woodbury. I understand from Matthew E. Bogaczyk, P.E., Project Manager for VTrans that a resurfacing project is planned to start in 2024 and finish by 2025. I specifically asked him about bike lanes and sidewalks with the Woodbury Lake area. He explained that 11' lanes and 4' paved shoulders would be provided (whenever possible)		see note above	

	A	B	C	D	E
41	transportation	As an avid bike and runner, and an active member of the Woodbury Lake Community I would request that the Town Plan includes provisions for the 11' lanes and 4 shoulders within the entire town limits. I would further request that a 5' sidewalk on at least one side of Route 14 be included in the construction project within the areas along Route 14 like the "Woodbury Lake Zone" and the Town Center. They should also be designated for slower speed zones and flashing signs that remind drivers of the speed limit within these more pedestrian active areas, at least during the summer the months.	C Pecor email 9/20, see attached pdf page 1		
42	recreation	"I also support the connection of the trails in the town forest for walking, hiking and trail riding (if possible). The connection of these trails and agreements with the VAST association are tremendous assets to the area and could help spur rural businesses by attracting visitors to our great area. As the Lamoille Rail trail and other are already doing...."			
43		"Thank you again for all of your hard work and commitment to the town plan and to our town in general. Thankful for you and the Planning Commission members!"	email 9/23 from Cindy Gordon		
44	Energy	Throughout the plan I find a bias toward photovoltaics and heat pumps at the expense of the biomass fuels that town residents are presently using. I think this is unfortunate, counter-productive, and based on a misunderstanding of the underlying science and international climate change policy.		From Clare: Yes, this is because this is the position of the State Comprehensive Energy Plan which has provided the basis and direction of the CV Energy Plan and subsequent municipal level work. For the purpose of meeting the PUC Standards for receiving a Determination of Energy Compliance, the Woodbury Town Plan may include additional narrative about the value and application of biomass and emphasize Woodbury's preference toward support of this technology. I would advise retaining the existing language rather than re-writing or replacing significantly.	

	A	B	C	D	E
45		<p>To get into some specifics: Page 6 [of Energy Plan] - "To this end, the focus for generation of energy is primarily based on existing technologies such as solar, wind, and hydroelectric. Additionally, the plan notes woody biomass and biogas as renewable forms of energy generation when developed in a sustainable manner." Put biomass right up there with the rest of them.</p>		<p>Clare's response: Suggest a modification to the referenced section to elevate biomass. This sentence is language directly excerpted from the Regional Energy Plan.</p>	
46		<p>Suggests Targets are changed in Table 8 to decrease number of heat pumps and to increase number of effiecent wood systems</p>	<p>email 9/20 Norm Etkind - see attached word.doc with full comment. See attached pdf page 4, see proposed language from Clare on pdf page 8</p>	<p>Clare's response: changing the targets in this table would require Woodbury to undertake an involved recalibration of the energy data and associated targets in order to meet the PUC Standards to get a Determination of Energy Compliance. You can not simply change the numbers in the Table because there is a local preference for one system vs the other AND meet the PUC Standards to get a Determination of Energy Compliance. Undertaking the analysis would likely postpone the adoption timeline for the town plan. the alternative approach would be to keep the numbers in Table 8 and add either new narrative or an additional table which includes Norm's assement and rational for increasing the targets for wood heat and reducing the targets for wood heat and propose tentative target range or generalized percentage change. I would not recommend inclusion of new/alternative specific fugures without doing the afore menioned analysis. You could also include a new Objective stating that Woodbury will undertake this specific analysis within the Conservation and Effeciency Objectives which start on page 22. See attached word.doc with more information on the custom analysis and some draft new lanaguage.</p>	

	A	B	C	D	E
47	Public, Educational and Recreational Services	Laura sent along some draft language for inclusion into the plan which expands upon the services of the Library - see email dated 10/15 with general language, and then see updated info within email dated 10/16	Laura Massell email 10/15, and 10/16, see pdf page 10 and 12		
48	multiple sections	Clarify, Coordinate, and Assert Community Standards - S Murphy requests the plan include clearer, more specific language to ensure town standing in state permit processes.	S Murphy, email dated 10/16. See pdf page 15.		
49	general	Assorted Edits	Assorted edits start on page 21
